

Creating a Communicate Account

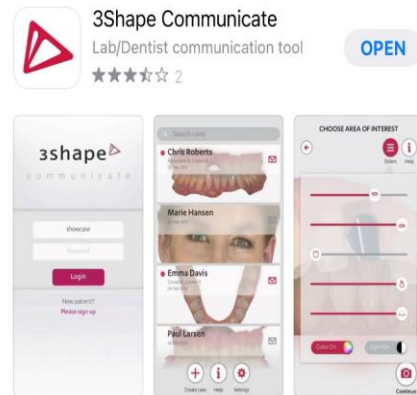

Step 1: Create a 3Shape ID

- This is a universal tool. It does not matter if you have a different brand of scanner or no scanner at all.
- Go to www.portal.3shapecommunicate.com/login
- Click “Create 3Shape ID”
- Follow the instructions to activate the account.

Step 2: Download 3Shape Communicate to your phone.

- Log in using your newly created communicate credentials.
- Let us know you are set up, then wait for us to connect in the communicate portal.

Step 3: Communicate

- The app will show 3D interactive case models and designs.
- Use the app to approve and make notes to share with your technicians.
